

Recording Resilience, Documentary Mentor and Instructor

Recording Resilience is a partnership between NW Documentary and the Dougy Center. This program serves teens who have tragically lost a loved one, by empowering them to create powerful video about the person they lost. In the 5-day program, each student will write, narrate, and edit their own tribute documentary, using photos, music, and even original art.

This intensive program is filled with tears and laughter, bravery, sadness, healing. Each year, NEW Documentary assembles a team of professional filmmakers, who have both the skills to help guide teens in the filmmaking process, as well as the empathy and courage to work one-on-one with youth.

Recording Resilience is a very special program we have a one to one student ration. Each instructor will work as part of the team, assisting the students in the storytelling and editing of their personal pieces.

Requirements:

- Demonstrated ability to work with, instruct, and inspire students ages 12-18.
- Outstanding communication skills, genuine empathy, and positive attitude.
- Comfortable engaging in difficult conversations about grief, death and illness.
- Demonstrated proficiency in documentary storytelling.
- Proficiency in Final Cut Pro X, Adobe Creative Cloud, digital cameras and scanners.
- Commitment to making filming making accessible to all youth.
- Background check for working with minors.
